Making Landscaping Easy - with the Ezi-scape Modular Landscape System

All great Landscape designs begin with a great concept.

Product Information

About Ezi-scape

The Beauty of Ezi-scape is that you can achieve a finished, professionally landscaped project in a fraction of the normal time - and **you can do it yourself**. Ezi-scape gives you the flexibility to customise your landscape with your ideas. Simply select the modules for your requirements, position and bolt them together. You can create beauty and ambience, with practical, built up planters, walling and customised water features or step down cosy seating areas. Entertain in style with the low maintenance outdoor kitchens and fireplace settings - all adding instant value to your property. And your investment remains yours – just unbolt and relocate should you choose.

With Ezi-scape you have the flexibility to change your designs at any stage, and add to your landscape as you are ready – simply bolt more components on as required. And remember – all Ezi-scape components are designed as a modular system, so you can't go wrong with selection.

What is Ezi-scape manufactured from?

Manufactured by Insitu GRC Ltd (www.insitugrc.co.nz), the product is made from GRC (Glass Fibre Reinforced Concrete). This material is substantially stronger than standard concrete, and because of the nature of the manufacturing process, can be made a much lighter weight.

How do I install the Ezi-scape modules?

It is advisable to prepare your area prior to placement of your Ezi-scape modular landscape system, to ensure a level surface to begin, thus making the product easier to install. Please consult a landscaper if you're unsure how to level and prepare your grounds.

It is advisable to first lay out your components before installation. When you're ready – simply drill and bolt together. To drill holes all you need is a masonry drill, and using a 10mm size drill bit, drill two holes per join – clamping modules together while drilling. Bolt the modules together using 10 x 60 zinc plated mild steel bolts, with 10 x 32 zinc plated penny washers. When using Ezi-scape as a planter box, we advise lining the interior sides with 500mm polythene or similar, prior to filling with soil.

Most landscapers are equipped to install this for you if preferred, and we can help to advise of experienced installers in your area. Ezi-scape can be painted if required, but you should seek professional advice from a paint retailer re: preparation, primer and top coat application. Ezi-scape comes in a standard grey finish but can be customised with different colours if required. Please ask for colour options.

Please feel free to contact us for further information regarding Ezi-scape products, installation and package deal pricing.

EZI-SCAPE MODULAR WALLING

Low Maintenance modular walling
- your garden, your way

OUTDOOR KITCHENS

Insitu GRC manufactures stylish, practical Outdoor Kitchen modules - standard or customised, you'll be the envy of all your guests

Outdoor Kitchens

OUTDOOR KITCHENS

Ezi-scape Modular Landscape System

Entertain in style with these Ezi-scape outdoor kitchen modules. Functional and practical, these are great stand alone units or team them up with the walling, planter & seating modules to create an entertainers dream.

Custom size modules available on request

EZ-BBQ

Ezi-scape BBQ Module
140cm x 88cm x 63cm

The Ezi-scape BBQ Module is designed to suit a 3 or 4 burner BBQ, allowing ample room for unsightly gas bottles to be stored safely underneath.

It comes complete with stainless steel doors

EZ-PBU

Ezi-scape Plain Bench Unit
140cm x 88cm x 63cm

The Ezi-scape Plain Bench Unit is designed to compliment your BBQ setting and maximise your outdoor space. Perfect as a bar unit or server bench, it is finished plain but can be supplied with an inlaid tile top on request.

It comes complete with stainless steel doors

EZ-SU

Ezi-scape Sink Unit Module
140cm x 88cm x 63cm

The Ezi-scape Sink Unit comes complete with stainless steel over-mount sink with waste basket. The tiled bench area is finished in a practical black tile.

(Custom options on request)

Comes complete with stainless steel doors

EZ-BEX

Ezi-scape Bench Extension
63cm x 63cm x 30cm

The Ezi-scape Bench Extension is designed to utilise an otherwise unused corner space. Simply bolt to any other Ezi-scape kitchen module to make the most of your alfresco area. Great as a pot stand or drinks area.
